Ultraclean Electropolish, Inc.

Quality Policy

We pledge to maintain high quality standards for our services on Electropolishing/Mechanical Polishing/Passivation /Electrocleaning Services in our shop and customer's premises by:

- Meeting or exceeding our customers' requirements;
- Providing prompt and efficient service;
- Monitoring our performance on an on-going basis;
- Striving for continual improvement.

We adopt and change our strategy to meet customer's requirements based on the applicable risks and opportunities associated with the business arising from changing external and internal issues pertinent to us.

Top management is committed to achieving these tasks by developing competency through a set of procedures and work instructions and to ensure that every employee understands and complies with the requirements of the organization's Quality Management System. Top Management shall periodically review established quality policy, quality objectives, risk and opportunity matrix, procedures and instructions for adequacy, continuing suitability and effectiveness. This policy is made available to all employees and other interested parties as and when needed.
